

Summer is on! Flexible payments help consumers keep it that way

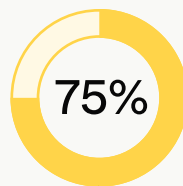

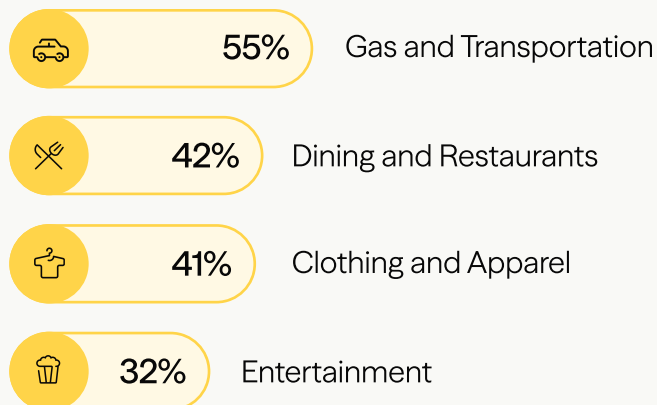

say flexible payment options are important in helping them enjoy summer activities or make purchases they might otherwise delay.

These payment options include installment loans, credit cards, or special financing.

50% say they did or will apply for financing before making summer purchases.

Consumers are also planning seasonal purchases across a variety of categories this summer, including:

of consumers say they have summer leisure plans this year, although in response to current economic conditions, some consumers say they're spending smarter by:
